

Blue Collar Attire

Thank you for choosing Express to assist with your job search. As an Express associate, dressing appropriately is always recommended. What you wear at work is an extension of your personal brand and the image of Express.

Suggestions for a light industrial or blue collar work environment:

1. Clean and appropriate clothing.

Your clothing should be clean, free of major tears, and fit appropriately. Stay away from wearing clothes with vulgar or slang terms.

2. Safe work attire.

If personal protective equipment is required, understand how to properly put on, adjust, wear, and take it off. Avoid clothing that could get caught in machinery or impede movement, such as baggy or long clothing, ties, and hoods. Long hair should be tied back.

3. Dress code compliant.

If the client has a dress code, whether it's unique for Express associates or required of all staff, we encourage you to understand and adhere to those guidelines.

4. Practice good hygiene.

Having a regular routine for personal hygiene is a critical part of your appearance, including clean hair, wearing deodorant, bathing, and brushing your teeth.

Attire examples for a light industrial or blue collar work environment:

- Jeans or utility pants
- Heavyweight T-shirt or button-up shirt
- Sturdy, steel-toe boots, closed-toe shoes
